KUSA - Does your dog have what it takes to be a spokesmutt? The maker of a line of protective pet gear has opened up a casting call for dogs to adorn their packaging and to take part in other promotion.

Montreal-based LuvGear is searching for the new face of the Planet PETCO with LuvGear [Technology](#) line of apparel and accessories. The line is designed to help protect dogs from the dangers of heat by warning dog owners when the external temperatures are reaching levels that may be harmful or even fatal to a dog.

The search for LuvGear's Top Dog photo contest runs through June 30th. The winner from each category (small dog and large dog) will be featured in a nationwide packaging promotion for LuvGear Technology.

AAA+

Here's how it works:

· Submit your photos: People who think their dog has super star quality can submit a photo to compete for the title. Submit a photo and select the proper category for each dog at www.luvgearcontest.com (Only one picture per dog can be submitted).

There are two (2) categories based on dog sizes:

Category 1: XXS - M

Category 2: LG - XL

Selection: At the end of the contest, the company will pick the top ten dogs from each category. Then, the public will vote for their favorite picks. The dog with the most votes in each category will be crowned LuvGear's top dog.

Good luck!
